 - How is web chats ordered
- How will this sprint look for everyone
 - Exams?
 - Major projects?
 - Presentations?
- Questions or concerns regarding tasks

Attendance:

Ty, Amy, Gavin, Itzy, Courtney

Note Taker:

Ty

Notes:

- There are some exams during the week for some group members
 - Shouldn't hinder progress but could take some time away
- Caleb and ty will work on the anonymous zaid bot
- Meeting with caleb to get up to speed on meeting

April 27

Agenda:

- Reminder to update your jira tasks
- How is everything going?
 - Do we have any road blocks?
 - Are we getting time to work on this?
 - Are things taking longer than expected?
- How are we doing mentally?
 - Are we doing ok
 - Are we overwhelmed
 - Is there something going on

Attendance:

Ty, Amy, Gavin, Itzy, Courtney, Caleb

Note Taker:

Caleb

Notes:

- Items are getting done on time
 - Running a bit behind due to events of the weekend and some travel issues
- More clarity on issues that were reported and being fixed
- Some confusion cleared up on who was working on what
- Chat list population ordering will be done in order of messages received
 - Most recent message received at the top
 - Least recent message received at the bottom

April 30

Agenda:

- Progress reports
 - Who still needs to lock in
 - Update your Jira tasks
- Reminder of timeline
- Start filling out templates
-

Attendance:

Ty, Amy, Gavin, Itzy, Courtney, Caleb

Note Taker:

Itzy

Notes:

- Things will be worked on and finished this weekend
- Goal is to get everything done by Monday meeting
- Next meeting will pertain to going over what to say or do for the final demo

May 4

Agenda:

- Last meeting of the semester
- Do your paperwork
- Is everything in order
- Did we get everything done that we needed to
- Who still has to lock in
- What are we going over on thursday

Attendance:

Ty, Amy, Gavin, Itzy, Courtney, Caleb

Note Taker:

Amy

Notes:

- Progress is being made
- All items will be finished in time
- Amy, Caleb, and Ty have a few items to finish
- Look into issues with Itzy's recent pull request
 - git keeps throwing an error whenever approving
 - code is good but git keeps throwing a fit
- Everyone will be going through their past pull requests and compiling a list of items they have finished this semester to prepare for Thursday
- Documentation will be finished on time
